## F A Q

**Q1: Could you suggest a design based on our requirements or samples?**

Of course, we are professional. We can test samples free of charge according to your requirements.

**Q2: Do you help with the operation of the product?**

We have a product instruction manual. Of course, if you have any problems, you can find me through the mail or online chat window to solve the operation problems for you!

**Q3: How do I process orders?**

Let us know your requirements and applications, and then we provide you with detailed quotation and logistics according to your requirements, and finally we confirm the order details together!

**Q4: How soon can you deliver the equipment?**

We will deliver your equipment within 3~5 days (there are a lot of stock), custom or mold processing needs to take 7~15 days.

**Q5: About packaging and shipping**

Provide strong plywood packing machine, safe and in line with international export standards.

**Q6: How do you ensure we receive a good product?**

Our equipment is their own procurement of raw materials, their own installation and commissioning. We understand all aspects of our equipment and will not go through a third party, and we will send you the equipment debugging video before shipment, to ensure that there will be no quality problems on your hands, causing trouble to your work!

## Product Description:

The Electric Head Massager Helmet is powered by a rechargeable battery and has a charging time of just 2 hours. This means that you can use it whenever you need it without having to worry about running out of power. The helmet is equipped with three different massage modes: vibration, air pressure, and heat. This allows you to customize your massage experience to meet your specific needs and preferences.

The massage helmet comes with adjustable intensity levels so you can choose the level of intensity that works best for you. Whether you need a gentle massage to help you relax or a more intense massage to target specific areas of tension, the Electric Head Massager Helmet has you covered.

The Electric Head Massager Helmet uses advanced technology to provide a massage experience that is both effective and comfortable. It is equipped with a Head Scalp Massager that is designed to target pressure points in your head and scalp, providing relief from tension and stress. The helmet is also equipped with a Helmet Testing Machine that ensures optimal performance and reliability.

The Electric Head Massager Helmet is easy to use and comes with simple instructions. Simply put the helmet on your head, adjust the straps to fit comfortably, and turn on the massage mode of your choice. You can use it at home, in the office, or on the go.

In summary, the Electric Head Massager Helmet is a powerful and effective tool for relieving stress and tension in your head and scalp. With its compact size, rechargeable battery, and customizable massage modes, it is the perfect solution for anyone who wants to improve their overall well-being. Whether you are looking for a gentle massage to help you relax or a more intense massage to target specific areas of tension, the Electric Head Massager Helmet has you covered.
