Applications:

Introducing the GT Electric Head Massager Helmet, model number GT-HT05, made in China. This innovative product is certified by CE, FCC, and ROHS, ensuring its quality and safety. The minimum order quantity for this product is 1000 units, with a price range of USD\$47.4-37.1\$ per unit. The packaging details of the product include carton and customized packaging, with a delivery time of 5-25 work days.

The GT Electric Head Massager Helmet is an electric therapy massager that provides a relaxing and rejuvenating experience for the user. The helmet is designed to protect the head and scalp while providing a soothing massage experience. The product weighs 1.5 pounds, making it easy to use and carry around.

The massage area of the GT Electric Head Massager Helmet covers the entire head and scalp, making it perfect for people who suffer from headaches, stress, and anxiety. The helmet is designed with adjustable intensity levels, with three settings to choose from, ensuring that the user gets the perfect massage experience every time.

The GT Electric Head Massager Helmet can be used in a variety of occasions and scenarios. For example, people who work long hours can use the helmet during their breaks to relieve stress and tension. The helmet can also be used at home after a long day at work or during the weekends to relax and unwind. Furthermore, the helmet is ideal for people who suffer from migraines and other types of headaches, as it can provide relief and help alleviate pain.

In addition, the GT Electric Head Massager Helmet can also be used for helmet testing equipment. The helmet provides a safe and comfortable way to test the durability and functionality of helmets, making it an essential tool for helmet manufacturers and safety inspectors.

The GT Electric Head Massager Helmet is powered by electricity and comes in a sleek and stylish white color, making it a great addition to any home or office. The product is available for purchase with T/T, Western Union, and Money Gram payment methods, and has a supply ability of 10000 units per month.
