## Product Description

### Electric Head Massager / Head Scalp Massager with Vibration Air Pressure and Heat

#### Product Description:

This electric scalp massager is perfect for people of all ages. Whether you are young or old, it can help relieve stress and tension in your head and scalp. It is also great for people who suffer from headaches, migraines, or other types of head and scalp pain.

The Electric Head Massager Helmet comes with a charging time of only 2 hours and can be used for up to 3 hours on a single charge. It is also equipped with an auto shut-off feature that turns the device off after 15 minutes of use, ensuring safety and convenience for the user.

The vibration mode of the Electric Head Massager Helmet helps to stimulate blood circulation in the scalp, which can promote hair growth. It also helps to relieve tension and stress in the scalp muscles, which can prevent hair loss. The air pressure mode helps to massage the scalp and relieve tension in the head and neck. It is also great for people who suffer from sinus congestion or allergies as it can help to open up the sinuses. The heat mode helps to soothe the scalp and relax the muscles, providing a calming and rejuvenating experience.

This product has been tested and proven to be effective in providing relief to people who suffer from stress, tension, and headaches. The Electric Head Massager Helmet testing machine has been used to ensure its safety and effectiveness. It is also easy to use, with a simple one-button control panel that allows you to switch between the different massage modes.

In conclusion, the Electric Head Massager Helmet is a fantastic product for anyone who wants to relieve stress, tension, and headaches. It is suitable for people of all ages and is easy to use. With its variety of massage modes, charging time of only 2 hours, and a weight of 1.5 pounds, it is a convenient and portable device that you can take with you wherever you go. Its effectiveness has been tested and proven, and it is a great investment for anyone who wants to improve their head and scalp health.

#### Features:

Product Name: Electric Head Massager Helmet

Charging Time: 2 Hours

Massage Area: Head And Scalp
