F A Q

Q1: Could you suggest a design based on our requirements or samples?

Of course, we are professional. We can test samples free of charge according to your requirements.

Q2: Do you help with the operation of the product?

We have a product instruction manual. Of course, if you have any problems, you can find me through the mail or online chat window to solve the operation problems for you!

Q3: How do I process orders?

Let us know your requirements and applications, and then we provide you with detailed quotation and logistics according to your requirements, and finally we confirm the order details together!

Q4: How soon can you deliver the equipment?

We will deliver your equipment within 3~5 days (there are a lot of stock), custom or mold processing needs to take 7~15 days.

Q5: About packaging and shipping

Provide strong plywood packing machine, safe and in line with international export standards.

Q6: How do you ensure we receive a good product?

Our equipment is their own procurement of raw materials, their own installation and commissioning. We understand all aspects of our equipment and will not go through a third party, and we will send you the equipment debugging video before shipment, to ensure that there will be no quality problems on your hands, causing trouble to your work!

Product Description:

The Electric Scraping Massager is made of high-quality ABS material, which ensures durability and longevity. This material is known for its strength and resistance to wear and tear, making it the perfect choice for a product that will be used frequently and for extended periods.

This leg massager is designed with a sleek and modern white finish that will complement any decor. Its compact dimensions, measuring 16.8 x 15.3 x 7.3 inches, make it easy to store when not in use, while still providing ample coverage for your legs during a massage.

The Electric Scraping Massager offers a range of massage techniques to help you relax and soothe sore muscles. Two of the most popular techniques used in this product are air compression and shiatsu. With air compression, the leg wraps inflate and deflate to apply pressure to the legs, promoting circulation and reducing swelling. Shiatsu massage, on the other hand, uses rolling, kneading, and pressing motions to relieve tension and pain in the muscles.

If you're looking for a complete massage experience, you might also consider pairing the Electric Scraping Massager with a Foot Bath Massager. This will provide a full-body relaxation experience, as the foot bath massager will help to soothe tired feet and promote overall relaxation.

The Electric Scraping Massager can also be used in conjunction with a Body Slimmer Massager to help reduce the appearance of cellulite and tone your muscles. This combination works by breaking down fat cells and promoting circulation, resulting in smoother, firmer skin.

Overall, the Electric Scraping Massager is a versatile and effective product that can help you enjoy the benefits of massage therapy from the comfort of your own home. With its adjustable leg wraps, durable ABS material, and range of massage techniques, this leg massager is an excellent investment for anyone looking to relieve pain, reduce swelling, and promote relaxation.
