Product Description

Electric Head Massager with 28W Motor for Scalp Neck and Face

Product Description:

Our Product

Designed with 3 different massage intensity levels, this electric head massager caters to the varying preferences of its users. Whether you prefer a gentle massage or a more intense one, this device has got you covered.

The electric head massager comes with a charging time of just 2 hours. This means that you can quickly charge the device and use it for extended periods. The device is electric and operates on a rechargeable battery, making it convenient for users to use it anytime and anywhere.

With its size of 38.5 * 8 * 10 Cm, this scalp stimulating device is perfect for everyone. It is compact and lightweight, making it easy to carry around. You can take it with you wherever you go and enjoy a relaxing massage experience whenever you want.

The package contents of the Electric Head Massager include an Electric Head Massager, USB Cable, and a User Manual. This ensures that users have everything they need to start using the product right away. Moreover, the user manual provides clear and concise instructions on how to use the device, making it easy for users to get started.

The Electric Head Massager is much more than just a simple device. It is a Brainwave Soothing Headband that helps to soothe and relax the mind. Studies have shown that scalp massages can help to reduce stress and anxiety, and improve sleep quality. The Electric Head Massager does just that, providing users with a relaxing and calming experience.

In summary, the Electric Head Massager is a must-have for anyone looking for a relaxing massage experience. With its 3 different massage intensity levels, compact size, and quick charging time, this device is perfect for those who want to unwind after a long day. Additionally, its Brainwave Soothing Headband feature makes it a unique and valuable addition to any wellness routine.
