Product Description

Product Description:

1. Deep Tissue Percussion Therapy

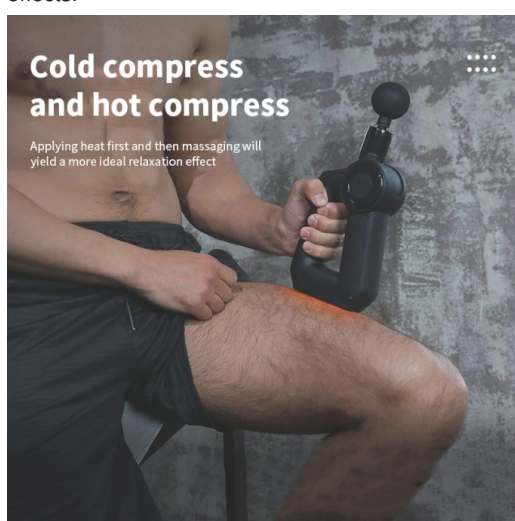

Utilizes high-frequency mechanical vibrations to penetrate subcutaneous tissues, reaching deep fascia and muscle groups. This effectively releases adhesions, rapidly relieves muscle spasms, and alleviates stiffness.

2. Dynamic Vibration Physiotherapy

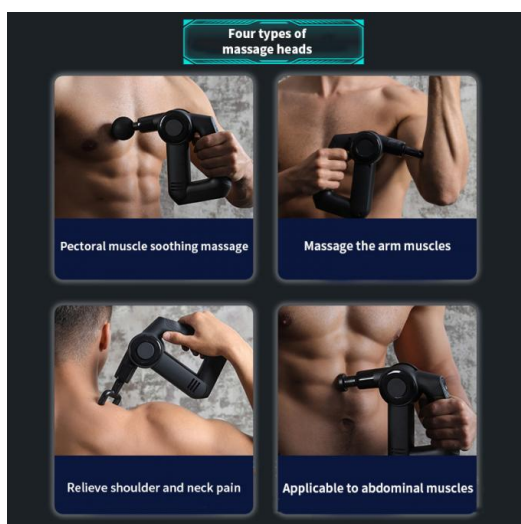

Adopts a scientific vibration frequency to stimulate muscle proprioceptors, block pain neural pathways, and enhance local blood circulation. This accelerates the elimination of metabolic waste such as lactic acid.

3. Intelligent Thermostatic Heat Therapy

Features a ceramic heating module that precisely regulates constant-temperature (heat therapy) between 40–60°C. By dilating blood vessels, it improves tissue oxygen supply, softens rigid muscle fibers, and enhances analgesic and relaxing effects.

Four Premium Attachments

Ergonomic and User - Friendly Design

This handheld massager offers flexible positioning, minimizing stress on the wrists and arms. It is incredibly easy to use, allowing you to release tension and increase the range of motion in various parts of the body, including the legs, neck, calves, knees, hands, and more.

The Angle is adjustable

Press and hold the middle knob
to rotate the direction

45°

Features:

- **Multimodal Therapies:** Combines kinds of advanced therapies (vibration, heat, cold etc.) for pain relief, recovery, and mental performance.
- **High - quality Attachments:** 4 attachments with specific functions for different muscle treatments and pain relief.
- **Ergonomic Design:** triangle handle for easy use, reducing wrist and arm stress and enabling better body coverage.

Technical Parameters:

Technical Parameters:

Percussion Muscle Gun Type:	Handheld
